

Newsletter

28/02/2023

Co-funded by the
Erasmus+ Programme
of the European Union

This is the kick-off. On 1 November 2022 the Hold My Hand project officially started! The consortium met for the first time at the end of the year. All activities were reviewed. The calendar is set.

The first objective for the beginning of 2023: the experience synthesis guide. This is a mapping of the legal and policy frameworks at stake, their recommendations as well as the good practices identified by the Belgian, Swedish, Portuguese and Italian partners. The second phase will concern the development of an online platform including pedagogical modules in order to better support people at the end of life.

Next meetings

- **April - may 2023 :**
Local conferences to present the project and test the tools
- **12 and 13 april 2023 :**
First transnational meeting in Modena, Italy
- **End 2023 :**
Mid-term conference in Lisbon, Portugal
- **In 2024 :**
Second transnational meeting in Sweden and final conference in Belgium

Partnership presentation

'Anziani e non solo' (ANS) is an Italian social cooperative established in 2004 that promotes lifelong learning, seeks to advance knowledge and strengthen communities. Their areas of focus/expertise are adult education and vocational education in the health and social care sectors.

'Elderberry' is a Swedish enterprise that carries out digital teacher training and the development, writing, testing, editing and publishing of digital training programmes.

'Santa Casa da Misericordia de Lisboa' (SCML) is a Portuguese institution of private law and public administrative utility that has oriented its activities, together with the community, in a perspective of proximity, respect and defence of good causes. SCML employs more than 6,000 people and has health schools and hospitals.

'UNESSA' federates more than 1100 reception, support and care services for people in French-speaking Belgium active in various fields: Youth, Elderly, Children, Hospitals, Socio-professional Integration and Social Economy, Disability, Prevention and First Line, Mental Health.

Project objectives

- To work on the development of a culture that addresses the issue of end-of-life support with full awareness
- To produce socio-pedagogical tools for the adult population in order to help them address the issue of the end of life with their families and health professionals
- Facilitate the transmission of information between the person, his or her family and friends, and health care institutions and facilities

Productions

- **An experience synthesis guide**

addressing the legal and policy frameworks of the partner countries, the international and European legal and policy frameworks and the selected European Good Practices (existing tools related to the themes of support and awareness of anticipation of the end of life).

- **An e-learning platform**

including socio-pedagogical modules responding to identified needs and following a Lifelong Learning approach. They will address different themes related to the accompaniment and anticipation of the end of life. This platform will be available in the 4 languages of the partnership and in English.

Target groups

- Adult population/civil society
- Family members likely to be involved in the support of a loved one at the end of life
- (Non-)professionals from the social or medical field (volunteers) likely to be called upon in the context of accompanying/anticipating the end of life
- (In)formal carers likely to be involved in accompanying/anticipating the end of life
